Guidelines for Success and Students of the Month

A few years ago we implemented a new school climate program here at BMS called the *Guidelines for Success*. This program encourages students to be Productive, Prepared, Prompt, and Polite at all times and in all areas of their lives, and our efforts to instill these guidelines are ongoing throughout the school year. Last week in FLEX I reviewed these guidelines with our middle schoolers and provided examples of how these guidelines apply to their daily lives here at school and at home. Students who are caught demonstrating any of the 4 Ps at school are awarded a Broncho Best purple ticket that is entered into a weekly drawing for small prizes and a monthly drawing for larger prizes. Their demonstration of the 4 Ps is also the primary qualification for their being chosen as a grade level Student of the Month. Each month you will see us congratulating the boy and girl from each grade that has been chosen by their teachers as having demonstrated Productive, Prepared, Prompt, and Polite behavior.
